Experiences

Fiavest Academy Sdn Bhd, Kuala Lumpur
Part-time Full Stack Developer

Feb 2022 - Dec 2023

- Developed an e-learning system using **React.js** and implemented **REST APIs** in **Java**.
- Created and maintained product landing pages, integrating Razer Merchant Service (**RMS**) for secure payment processing.
- Enhanced company transparency by building an interactive website showcasing a list of past interns.
- Utilized **Python** to analyze financial data, supporting data-driven decision-making.

Fiavest Academy Sdn Bhd, Kuala Lumpur
Information Technology Intern

Nov 2021 - Jan 2022

- Developed marketing-focused landing pages, integrating **Google Analytics** and **Facebook Pixel** for better tracking and insights.
- Gained foundational programming skills and IT knowledge, contributing to web development tasks and internal projects by using **HTML**, **CSS**, and **JavaScript**.

Projects

Netwlic | netwlic.com

Sep 2024

- Designed and developed a fully responsive website for NETWLIC, a media marketing agency.

ProX

Mar 2024 - Jul 2024

- Developed a financial stock market automation platform using **Node.js**, **TypeScript**, and **SQL**, processing over 10,000 stocks daily across NASDAQ, NYSE, MYX, and HKEX.
- Created a dynamic stock filtering system with customizable strategy parameters, offering users tailored stock selections.
- Implemented features for market trend analysis, advanced strategy testing, and end-of-day (EOD) data integration, providing comprehensive insights into stock movements and trends.
- Enabled integration with platforms like **TradingView** and **MooMoo** for seamless analysis.

Earthlings

Jan 2024

- Developed a platform to facilitate seamless communication between remisiers and their clients using **React.js**, **Firebase**, and **Node.js**.
- Implemented investment highlight tools, enabling remisiers to specify daily important stocks and automatically send emails to clients, including course details and the remisier's verification QR code.

Bunny DRC20 | bunnygo.me

Jan 2024

- Designed and developed a responsive, interactive website to promote Bunny DRC20 cryptocurrency.
